Architectural Foam for EIFS & Stucco

Contact JCF today for all your Architectural needs!

JCF Companies, LLC began in our backyard 30 years ago. We are now a 60,000 square foot Production Powerhouse.

We can provide you with trims of all shapes and sizes for use with EIFS and stucco finishes, three dimensional shapes, store displays, theatrical props, stone, plaster, and polyurethane castings. We also are experts at recreating pieces for historical restorations.

Our CNC department can produce or replicate any kind of logo, shape, or architectural element.

JCF offers complete design services with a full line art department. In addition, we offer a wide variety of coatings including Stucco, Chosmichrome, Polyurea, and Faux Cast Stone.

We are fast, efficient and affordable. We would love to help you on your next project. We have a real passion for this and you will not be disappointed!

Cast Stone - APC - GFRC - Concrete Form Liners - Multi Axis Machining - Water Jet
